Application/Control Number: 09/751,537

Art Unit: 1732

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1, 3, 5, 12, 13, 24-29, 35-38 and 42 drawn to a molding die, method of making same and method for making an IOC, classified in class 264, subclass 1.24.
- II. Claims 6, 7, 9-11, 15, 16, 18-23, 30-34, 39, 40, 41 and 43, drawn to a molding tool, method of making same and method of making an IOC, classified in class 264, subclass 1.6.

The inventions are distinct, each from the other because:

Inventions I and II are separate or distinct in that the claims of Group II call for the die/substrate to be contained on the surface of a roller to allow for continuous operation while those of Group I do not.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Parsons on April 16, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2.Comments directed to the rejection of September 11, 2003 and amendment of January 16, 2004 will be held in abeyance pending an election.

Application/Control Number: 09/751,537

Art Unit: 1732

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Colaianni, can be reached on 571 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
